## **Exhibitors comments ShowCo participants Space Rennes 2019**

We also show equipment for pigs on the same stand.

SPACE is the best international exhibition (also for poultry) for the French speaking customers. We should go from four to three days.

Much more visitors in Hall nr. 10A (where all the yearly exhibitors were located).

Hall nr. 10B (where the two-yearly exhibitors were located) was considerably less crowded (even if compared to last editions), with very few visitors in the morning, and a higher presence of people in the afternoon.

Wi-Fi connection was available, but the registration process was too complicated and nobody was able to connect. Parking was well managed.

Traffic in the morning in the whole near area was too intense, a public transportation line would have been much more appreciated.

Maybe some less visitors compared to previous Space but still very good show with quite a lot of international visitors.

We are pleased with how the show went this year. We had an issue with the catering offered by the organization: ordering during the show but not a prompt delivery.
