## About ShowCo Association

Together we can achieve more

## General information

### About ShowCo Association

ShowCo is an association of companies in the poultry industry who aim to improve the quality and cost-effectiveness of poultry trade fairs. All members understand that trade fairs are an effective route to market but only when they have enough suitable exhibitors and delegates who are decision-makers in poultry enterprises.

ShowCo members work together to identify the events with the best opportunities for members. In practice, this means attending fewer trade fairs and focusing only on the highest-quality poultry industry events. This strategy is beneficial for everyone involved with poultry trade fairs:

#### • *For delegates*

A broader offer at poultry trade fairs with more relevant companies in one place allowing them to gather information and network prior to making important decisions for their businesses.

#### • *For trade fair organizers*

Positions the event as a 'go to' destination for networking in the poultry industry and attracts high-quality delegates because of the range and quality of exhibitors.

#### • *For ShowCo members*

More efficient use of resources to target trade fairs with the best visitor profile and networking opportunities. Frees time and resources so members can develop innovations and offer a more exciting portfolio when we do exhibit.
